Canada	2.25	Grass Creek	2.30
South Texas	2.48	Big Muddy	2.30

Roosevelt Week

This is Roosevelt week, and no men should see to it that Tulsa does not have its share of the honors of the great American. It was he who made it first possible for the independent refiner to get the same freight rate that was granted to the Standard carrier, and he did away with the practice then in effect, collecting double-first class rates from the independent shipper, which money went fifty fifty to the carrier and to the Standard.

He left it with one flourish of the hand, and the oil men have shamed themselves to keep down, and now call for what he has done for the independent refiner but for the sake of Americanism throughout the world. It is so great a subject and so full of appeal to the people of Tulsa, but it must be passed over briefly in this column.

P. E. Maxey of the Union National bank is treasurer of the Roosevelt fund, and the right man in the right place. Subscriptions should turn in rapidly.

Tuesday Will Be Big Day

Tuesday will be a big day in oil circles, as it marks the opening of the great convention at Chicago which will be addressed by men of national reputation and will have for speaker attorney George Lovell of Illinois, Governor Lampert of Indiana, Richard Wetheran of Washington D. C. who is secretary of the railroad committee of the national chamber of commerce, and more eloquent still the president of the Western Petroleum Refiners association, Pat Mallon, who will speak on the work and aims of the association. There are 1,500 registered and many that is of interest, not mentioned here, and it bids fair to be the best and largest convention of oil men ever held anywhere.

Here at home the Mid-Continent Oil & Gas association will hold its annual banquet and will be addressed by the eminent speaker, Dr. Hawley together with such forest rakers as Judge J. C. Harlan, Harry Stiles and the opening address of welcome by Frank Blackwell is looked forward to with the greatest interest. Reservations have been made for 150 guests and more are expected. It
